

Your favorite hackathon team building tool!

By: Cspragu

Team Creation

- Quick & simple
- No registration required
- Uses wallet for identity
- Name & describe project
- Select desired skills / roles

The screenshot displays the 'Team Creation' interface, specifically the 'Team Owner' role. At the top, there are two tabs: 'Builder / Applicant' and 'Team Owner'. The 'Team Owner' tab is active, showing a description: 'Post a project listing, and find matched builders.' Below this, there is a '+ New Listing' button. The main section is titled 'Team Owner' and contains three sub-tabs: 'Post Listing', 'Browse Candidates', and 'Messages'. The 'Post Listing' tab is selected, leading to the 'Post a Team Listing' form. This form includes a 'Project Name *' field with a placeholder 'e.g. ZK Reputation Protocol', a 'Project Description' field with a placeholder 'What are you building? What problem does it solve?', and a 'Desired Skills' section. The 'Desired Skills' section features a grid of skill tags: TypeScript, JavaScript, Python, Rust, Go, Java, C++, C#, Solidity, Vyper, Move, React, Next.js, Vue.js, Svelte, Angular, Tailwind CSS, Node.js, GraphQL, Docker, AWS, EVM, Wagmi / Viem, Hardhat / Foundry, IPFS, ZK, LLMs, and Privacy.

Builder / Applicant
Share your skills, link on-chain credentials, and receive intro requests from teams.

Team Owner
Post a project listing, and find matched builders.
